

Welcome to the Mathletics Teacher Centre!

Use the Teacher Centre to enhance your students' experience of Mathletics and gather valuable insight into their progress.

By providing you with detailed reports and data about your students' use of Mathletics, you can easily tailor the program to their needs. This means better differentiation, more focused learning and improved results!

A huge range of additional resources is available to supplement students' learning and boost understanding, allowing them to achieve more!

1 Getting Started

Sign In to the Mathletics Teacher Centre using your Username and Password.

From here you can access a whole range of tools to enhance your students' experience with Mathletics.

You may like to start by printing off your students' sign In cards.

2

You can easily create ability groups within your classes in 'Classes and Groups'.

Use the drop down menu in your header to select the class you wish to manage.

Click on '+ New Group' to begin.

Choose an original name for your group and the course that you would like them to study. Assigning a course based on students' ability allows for effective differentiation.

What would you like the r	name of the new group in 5 Reed to be?
New Group Name	5 Reed Extension
Which course would you li	ke to assign to this group?
Country	Australia
New Group Course	New South Wales Year 6
	Add Group

ADD A GROUP TO A CLASS

Once you have created your new group you can add students into it by clicking 'Move Students'.

This will provide you with a list of students in your current class.

When moving students between classes you have the option to 'Move' or 'Copy' the student.

To 'Move' the student will remove them from any classes to which they previously belonged.

To 'Copy' will allow the student access to both classes.

You can add or rename groups at any time. You can also delete groups provided that there are no students in them at that time.

QUICK TIP! Move students between your own groups by dragging them to the tab of your choice.

3 Courses

5

View the course that is assigned to each group. Expand the topic to see the activities in it.

Click the vertex button on the left to preview each activity and even access some great Teacher Guides.

You have the option to allow your students access to 'My Games' and 'Times Table Toons' in their Student Centre.

Similarly you can choose to show or hide units of work to direct your students' progression through their course.

New South Wales Year 3 " unit hidden to students Show Games 🗹 Show Time Tables Curre v ► ≠ (N) Whole Numbers ▶★ (N) Fractions and Decimals V ~ (N) Addition and Subtraction ►★ (N) Multiplication V * * (N) Division 1 ▶ ★ (PA) Patterns and Algebra - (ND) Chance and D

Click on the 'Change' button to update the course.

The Mathletics syllabus is mapped to a huge range of curricula worldwide so you are able to choose the one that suits your group best!

4 Results

Welcome to 'Results'! Use this great tool to

view results and assign tasks for your students with the click of a button.

Upon entering from your Teacher Centre you will see a list of your students and topic names.

Click any of the topic names to see the activities in it.

	ann, dean units, dinar tran, Toular units, Januala									

The mark book shows you the results that your students have achieved for all activities in the course.

The mark will appear in blue if a student has achieved mastery or red if they are yet to do so.

Hovering over the score will give you a summary of that student's attempts.

If a student has attempted an activity three times without achieving mastery, the flag will turn red.

Clicking on the arrow under the activity name will show you a list of actions available.

To assign an activity to an individual student:

Click the mark box next to their name. The student will be unable to access other areas of Mathletics until they complete the set task.

Assigned Activities

Keep track of tasks set in 'Assigned Activities', where you can view by date or student.

Click the red cross to delete an activity.

Once the assigned tasks have been completed, the results will appear in 'Recent Results'.

You can turn 'Assigned Tasks' off so that students can access Mathletics as normal. Simply turn them back on when you require more directed work.

Alternatively, just cancel all tasks.

5 Reports

Find all 'Reports' for your class in one

convenient location.

'Weekly Summary' gives you details of your students' weekly participation in Mathletics. View their total awards or print certificates for any selected week.

Select 'Summary' to see curriculum activities attempted by your students and the mark attained.

This breakdown is fantastic for keeping records of your students' weekly usage of Mathletics.

Workbooks

The instant workbook

series has been created as another way to provide you with the best resources and enhance your students' learning.

Each workbook has great activities for students and a corresponding Teacher Book for you!

Demostrations

'Demonstrations' provides you with a student view of Mathletics.

It is great for conducting class demonstrations. Why not play a class game of Live Mathletics?

We are always releasing new features, so make sure you keep a look out for them!

If you have any queries, please contact customer.service@3plearning.com.au
